PROFILE

Strong foundation in software engineering with a focus on user design and user experience (UI/UX), and always willing to take on new challenges. Spent nearly five years as a UI/UX software engineer at one of the largest churches in the nation, Southeast Christian Church, while leveraging Agile/Scrum, improving UI/UX with BEM, implementing app solutions, and helping bridge the gap between designers and developers. Currently a software engineer for 9 Embers, helping churches implement church management systems (Rock RMS) while leveraging UI/UX skills for a seamless user experience between their web platforms. In my free time, I love spending time with my wife, playing pinball (which I am internationally ranked), run, and travel the world.

EDUCATION

2019 – 2020 | Computer Science

Colorado State University Global | Online

- Certificate in Time Management Fundamentals.

2015 - 2016 | Bootcamp - Full Stack Web Developer

Bloc, Inc. | Online

Took an intensive online program to help accelerate skills within the software engineering world.

- Learned Ruby on Rails MVC Architecture with Active Records, Devise, and RSpec.
- Paired with Senior Developer
- Used TDD to help with design and test coverage
- Angular 1.2, Git, Sass/Less, Node.js, Express, Bower/Grunt/Gulp

2015 - 2016 | Computer Science

Hawaii Pacific University | Oahu, Hawaii

2010 - 2012 | Majored in Computer Science

Front Range Community College | Longmont, CO

SKILLS

TIME MANAGEMENT LEADERSHIP JAVASCRIPT ES6
PROBLEM SOLVER CREATIVE WORKING IN GROUP HTML5
REMOTE DETERMINED CSS/LESS/SASS/BEM
SHOPIFY LIQUID TEAM PLAYER CMS/ChMS/eCommerce
CLEAN CODE LATTES EYE FOR DESIGN WIREFRAMES

EXPERIENCE

2021 – 2022 | SOFTWARE ENGINEER & CONSULTANT

9 Embers | Remote

Implementing church management systems (ChMS, Rock RMS) while leveraging UI/UX skills for a seamless user experience between their web platforms.

2015 - 2021 | UI/UX Software Engineer

Southeast Christian Church (SECC) | Louisville, KY

UI/UX Software Engineer for a multi-campus church that averages 60k weekend attendees. Primary responsibility has been to coordinate with designers & developers, utilize the agile/scrum methodology, implement cutting edge designs, keep user experiences clean, optimize for mobile, implement BEM, and ensure cross-browser compatibility. Used JIRA to keep track of tasks/projects, and Jenkins to facilitate continuous integrations and delivery.

2013 - 2014 | Director of UI/UX

IBMS Global, Inc. | Longmont, CO

Designed and developed a web-based project management and reporting SaaS (software as of service) platform to help small – medium sized companies manage their government contract business at the enterprise level.

2011 - 2013 | Co-Founder

The Caleb Group. | Longmont, CO

Co-founder partner focused on building early-stage mobile marketing companies, with an emphasis on proven behavioral marketing techniques, with real time analytics to drive an improved consumer experience, while increasing sales and profitability for business partners. Led the development of The Caleb Group's investments in Sidewayze, and Lost Pet Station.
